

The days are shorter...watering your garden should be too.

The City of Newport Beach would like to remind you that your lawn and garden need less water during the cool winter months than during the heat of summer. Please help save water by adjusting your sprinkler system and irrigating less often. Despite our rainfall this season, California's water shortage persists. Just a simple effort, like turning down your sprinklers, can go a long way in conserving our water supply.

Water Miser WORKSHOP

March 5, 2009, 6 pm - 9 pm

Newport Beach Central Library,
1000 Avocado Avenue
Newport Beach, CA 92660

The City of Newport Beach invites you to join us for our first WaterMiser workshop.

We would like to invite you and your family to join us for an evening of water conservation education.

- Ask questions of Master Gardener, Ron Vanderhoff of Roger's Garden's, writer of the Garden Spot for the *Daily Pilot* and Tom Ash, Director of Conservation Alliances for HydroPoint Data Systems.
- Learn what conservation efforts are underway in the City of Newport Beach.
- Watch hands-on demonstrations of good and bad irrigation design and functionality.

- Learn about the varieties of native and California Friendly® plants that are available and how you can have and maintain a beautiful low-water use garden.

No reservations are necessary. For more information, call Shane Burckle (949) 644-3214 or email SBurckle@city.newport-beach.ca.us
